AMUSEMENTS

A RAILROAD THRILLER
TODAY AT THE BUTLER

"Rockless Chances," which will be shown at the Butler today, the course of true love does not run smoothly even on steel rails. This is one of those railroad stories of adventure, romance and thrills that J. P. McGowan is famous for. It is a story of the modern west and railroad robberies. Carloads of gold are mysteriously stolen, and it takes as though by someone "on the inside." Circumstantial evidence against McGowan causes his arrest. While making his escape from the sheriff he encounters a pretty girl in distress. After that no chance is too ticklish to be tried here.

Howard Lantier, who has been visiting John Smith for some time, will leave tomorrow morning for his home in San Francisco.

W. D. DUNSTON, who is president of the Nevada National Bank of Tonopah, is expected to arrive here this morning on route to Reno.

MISS LORETTA WALSH, popular clerk in the post office, left this morning for Carson City and Reno where she will visit with relatives for two weeks.

WEST END HAS FINE EARNING MONTH OF JUNE

Last Shipment of Bullion Had Value of Over Eighty-Four Thousand

EARNING GRADUALLY SWELLED

Mine Showing Splendid Physical Form, According to Official Report Announced

The West End Consolidated Mining company maintained its reputation of silver and gold bullion as was evidenced from the fact that during the past week a shipment of 75,278 ounces of bullion having a value of \$84,317 was made. This was the result of the cleanup for the last half of June at the West End and MacNamara mills and was wholly in keeping with past shipments that have been made of late.

The above production did not include the one shipment to the Denver mill at Millers, shipments of bullion going out with other shipments made by the Tonopah Mining company. The average daily output of the West End mine is as follows:

The official report of operations by the West End company, covering the seven day period ending Saturday morning, July 8, is as follows:

"From the West End shaft workings, mine 215A made 441 progress on low grade quartz. Present 441 shows a full face of low grade quartz. 500 drift if made face present on a full face of ore. Mine 220-A continues to advance with no change in report. Present 482-Na. 1 shows a full face of low grade quartz.

"In the Old shaft workings, drift 522A made 600 progress on ore of fair grade. Drift 522-B advanced on ore of good grade. Crosscut 611 made the usual advance without change. On the old level, work has been resumed in chert. Crosscut 611 No. 1 made good headway on low grade vein material. Drift 618 No. 2 made a fair advance on ore of good grade. The footage for the week was 143 feet.

"Tonnage and grade was normal, with production of 2100 tons for the week."

Conditions at the Tonopah North Star are of a most encouraging nature and the outlook is favorable for the production being augmented in a substantial manner during the coming weeks. On the 1950 level the showing in the drifts started from the point where the fault was passed the showing is making a marked improvement from week to week, and while the production at the present time is limited, the output is averaging around one carload of 50 tons each week. The product is being consigned to the Tonopah Belmont mill and it is stated that values of better than the average grade of milling ore are being realized.

Be sure and attend the Eagles dance Saturday night. Plenty of fans to keep you cool and the best music ever had in Tonopah. J7-21.

OIL at FISH Lake

—Is becoming less of a gamble every day.

We have never put it up as a sure thing,—but we do say—

IF THE FAVORABLE REPORTS OF SUCH MEN AS C. A. FISHER, W. J. KNOX AND F. W. REMEY—

IF IDEAL SURFACE FORMATIONS—

IF THE OUTCROPPING SANDSTONE DIPPING UNDER OUR LOCATION—

IF HEAVY GAS PRESSURE, OIL SEEPAGES, OIL SAND POCKETS, SHALE, LIMESTONE, AT 1200 FEET—

IF LOCATION OF FIELD ADJOINING CALIFORNIA ON A LINE WITH THE BIGGEST OIL FIELD IN THAT STATE—

IF THESE THINGS MEAN ANYTHING, THEY MEAN—

We should bring in a Gusher

One thing is sure—There can be no argument about what oil at Fish Lake will mean to Tonopah and Southern Nevada and to those who are fortunate enough to own stock in the FISH LAKE MERGER when the oil is struck.

\$5000 TO \$10,000 FOR 1000 SHARES SEEM TO BE A CONSERVATIVE ESTIMATE

You can buy 1000 shares today for \$100

If you are going to take a chance in anything you certainly can't beat FISH LAKE MERGER at 10c a share. The drill is now pounding away at over 1200 foot depth, and, according to the oil experts, everything indicates we are getting close to the pay sand.

BUY YOUR STOCK TODAY—WHEN THE OIL IS STRUCK IT WILL BE TOO LATE.

Fish Lake Merger Oil Co.
